Beechcraft King Air B200 Flight

The United States Army, Air Force, Navy and Marine Corps have all flown versions of the Super King Air 200. As noted above some have been "off-the-shelf" civil versions, but the majority have been purpose-built for the military and were treated by Beechcraft and the FAA as a separate series, the A200 series.

Beechcraft Super King Air - Wikipedia

On Monday 4 September 2000, a chartered Beechcraft 200 Super King Air departed Perth for a flight to the mining town of Leonora, Western Australia.The aircraft crashed near Burketown, Queensland, Australia resulting in the deaths of all eight occupants. During the flight, the aircraft climbed above its assigned altitude. When air traffic control (ATC) contacted the pilot, the pilot's speech ...

2000 Australia Beechcraft King Air crash - Wikipedia

"In summary, when I look at the aircraft exterior, the interior, the flight characteristics, the newly added maintenance features, my choice of wear, tear and failure rate, the latest edition of the G1000 control system, and of course, the choice of the Blackhawk B200 Super King Air as a total package for FSX, I humbly mumble - it just doesn't get any better than this."

Beechcraft King Air 350 | Performance and Specifications

About the King Air 200. Originally conceived as the Model 101 in 1969, the Model 200 was a development of the Model 100 King Air. It had essentially the same fuselage as the Model 100, with changes to the rear fuselage to accommodate a new T-tail and structural changes to allow higher maximum pressurization.
