Mazda 323 BJ (1.3, B3 Engine) Flat Spot was created by LRDisco. Long Story, took the wife's Mazda 323 down to visit the inlaws - a long trip. On the way there it felt a bit low on power, but otherwise OK. Took a break for half an hour, restarted and the vehicle was missing, flatspotting and jerking.

**How do you replace a clutch on a mazda 3 car**  
2. Inspect Clutch Wear: The clutch disc is the part that wears down much like a brake pad, in fact the clutch disc has brake pad material on either side of it which is held on by rivets. When this lining wears it allows the rivets to contact the flywheel or pressure plate which causes the clutch to slip.
