This course will provide a language therapy toolkit refresher for SLPs who work with students from preschool to elementary school. The role of the SLP in literacy, background information on the nature of reading, specific interventions for both preschool and elementary school, and ways to maximize motivation and develop rapport with this population will be discussed.

Journey from Preschool to Elementary School: Language and ...

Although preschool language intervention may not eliminate the risk of future reading difficulties, it can prevent or reduce many problems. For example, children with language impairment may have temper tantrums that occur due to frustration over their inability to communicate effectively; intervention that enables children to communicate their wishes and needs can help to avoid these kinds of behavior problems.

Response to Intervention (RTI) is an approach schools use to match individual students with the teaching practices and level of support that work best for them. While you may make a referral for a special education evaluation at any time, public schools serving students in grades K-5 are required to implement RTI before making a referral.
